BOOK SYNOPSIS

IES SAT books are designed to follow a compact format yet offer the student test taker a wealth of advice and practice material. This discipline-specific New SAT Grammar book features ten full Writing and Language practice tests, along with intensive, memorable lessons that show students how to deal with the nuances and intricacies of the New SAT. Study of essential grammar rules and practice with the most accurate, most relevant material are the essentials of success on the New 2016 SAT. Like its predecessor, the re-designed SAT tests the fundamentals of verb usage, sentence construction, comparison, and English diction. But the new test has also shifted emphasis, and shifted radically: punctuation, paragraph coordination, and uses of visual evidence will pose new challenges. It will be necessary to break bad writing habits, and to leave behind awkward or incorrect colloquial expressions, more aggressively than ever before. Precision-edited and classroom-tested you will find tips and tricks on subject-verb agreement, parallelism, redundancy, and idiomatic expressions. These tips have guided numerous IES students to success on the old SAT and are just as relevant to the new version. Yet new sections on coherence, style, and using visual resources will give you everything you need to approach the questions that are unique to the passage-based New SAT. To break the bad habits formed in everyday speech and undisciplined writing, and to truly grasp all question types on the New SAT Language and Writing, you need this book. Once you have completed the lessons, exercise your new knowledge using the ten practice tests all based on the newest released tests from the College Board itself. We at IES have confidence that you can control the New SAT.
